165 Pearl St., NEW YORK.

HILL'S Patent Sliding Window Blinds

These Blinds require no hinges, and all trimmings are supplied. They do not interfere with curtains or window ornaments, and are so constructed that light and air can be admitted from any part of the window. Being easily and rapidly operated they neither rattle nor get out of order. They economize space by doing away with pockets and the necessity of furring out, and can be removed and replaced instantly without even drawing a screw. They require no special frame, as they can be attached with equal facility to any window. Are specially adapted to Bay and Clustered windows. For workmanship or style these blinds are not excelled by any in the market. Also, improved English Venetian Blinds in any desired wood, handsomely finished. Wire Screens, &c.

VENETIAN BLIND CO.,

1193 Broadway, New York, & 16 Court Street, Brooklyn

I. V. MEAD'S TOOL WORKS,
STONE CUTTERS', CONTRACTORS' and MASONS' TOOLS.
 370 Avenue A, near 23d Street, NEW YORK.

1. The first part of the book is devoted to a general survey of the history of the English language, from its origin to the present time. It is divided into three main periods: the Old English period, the Middle English period, and the Modern English period. The Old English period is the earliest, and is characterized by the use of Old English, which was the language of the Anglo-Saxons. The Middle English period is the middle period, and is characterized by the use of Middle English, which was the language of the Middle Ages. The Modern English period is the latest, and is characterized by the use of Modern English, which is the language of the modern world.

2. The second part of the book is devoted to a detailed study of the grammar of the English language. It is divided into two main parts: the first part is devoted to the study of the syntax of the English language, and the second part is devoted to the study of the morphology of the English language. The syntax of the English language is the study of the way in which words are combined to form sentences. The morphology of the English language is the study of the way in which words are formed.

3. The third part of the book is devoted to a detailed study of the vocabulary of the English language. It is divided into two main parts: the first part is devoted to the study of the etymology of the English language, and the second part is devoted to the study of the semantics of the English language. The etymology of the English language is the study of the origin of words. The semantics of the English language is the study of the meaning of words.

4. The fourth part of the book is devoted to a detailed study of the pronunciation of the English language. It is divided into two main parts: the first part is devoted to the study of the phonetics of the English language, and the second part is devoted to the study of the phonology of the English language. The phonetics of the English language is the study of the physical production of sounds. The phonology of the English language is the study of the system of sounds.

5. The fifth part of the book is devoted to a detailed study of the writing of the English language. It is divided into two main parts: the first part is devoted to the study of the orthography of the English language, and the second part is devoted to the study of the punctuation of the English language. The orthography of the English language is the study of the way in which words are written. The punctuation of the English language is the study of the way in which sentences are written.

6. The sixth part of the book is devoted to a detailed study of the history of the English language. It is divided into two main parts: the first part is devoted to the study of the history of the English language in the past, and the second part is devoted to the study of the history of the English language in the future. The history of the English language in the past is the study of the way in which the English language has changed over time. The history of the English language in the future is the study of the way in which the English language will change in the future.

7. The seventh part of the book is devoted to a detailed study of the literature of the English language. It is divided into two main parts: the first part is devoted to the study of the literature of the English language in the past, and the second part is devoted to the study of the literature of the English language in the future. The literature of the English language in the past is the study of the way in which the English language has been used in literature. The literature of the English language in the future is the study of the way in which the English language will be used in literature.

8. The eighth part of the book is devoted to a detailed study of the culture of the English language. It is divided into two main parts: the first part is devoted to the study of the culture of the English language in the past, and the second part is devoted to the study of the culture of the English language in the future. The culture of the English language in the past is the study of the way in which the English language has been used in culture. The culture of the English language in the future is the study of the way in which the English language will be used in culture.

9. The ninth part of the book is devoted to a detailed study of the science of the English language. It is divided into two main parts: the first part is devoted to the study of the science of the English language in the past, and the second part is devoted to the study of the science of the English language in the future. The science of the English language in the past is the study of the way in which the English language has been used in science. The science of the English language in the future is the study of the way in which the English language will be used in science.

10. The tenth part of the book is devoted to a detailed study of the art of the English language. It is divided into two main parts: the first part is devoted to the study of the art of the English language in the past, and the second part is devoted to the study of the art of the English language in the future. The art of the English language in the past is the study of the way in which the English language has been used in art. The art of the English language in the future is the study of the way in which the English language will be used in art.

Provident Savings Life Assurance Society,

Renewable Term Life Insurance, —the safest, fairest and least expensive system attainable.
Equitable Building, 120 Broadway, New York. (See advt. at Insurance)

March 11, 1891

Dear Mr. [illegible]

I have just received your letter of the 10th inst.

and am glad to hear that you are well.

I am well and hope this finds you the same.

I have not much news to write at present.

I am, however, very much interested in the

progress of the [illegible] and hope to hear

from you again soon.

I am, dear Mr. [illegible], very truly yours,

[illegible]

P.S. I have just received your letter of the 10th inst.

and am glad to hear that you are well.

I am well and hope this finds you the same.

I have not much news to write at present.

I am, however, very much interested in the

progress of the [illegible] and hope to hear

from you again soon.

I am, dear Mr. [illegible], very truly yours,

[illegible]

P.S. I have just received your letter of the 10th inst.

and am glad to hear that you are well.

I am well and hope this finds you the same.

I have not much news to write at present.

I am, however, very much interested in the

progress of the [illegible] and hope to hear

from you again soon.

I am, dear Mr. [illegible], very truly yours,

[illegible]

P.S. I have just received your letter of the 10th inst.

and am glad to hear that you are well.

I am well and hope this finds you the same.

I have not much news to write at present.

I am, however, very much interested in the

progress of the [illegible] and hope to hear

from you again soon.

I am, dear Mr. [illegible], very truly yours,

[illegible]

P.S. I have just received your letter of the 10th inst.

and am glad to hear that you are well.

I am well and hope this finds you the same.

I have not much news to write at present.

I am, however, very much interested in the

progress of the [illegible] and hope to hear

from you again soon.

I am, dear Mr. [illegible], very truly yours,

[illegible]

P.S. I have just received your letter of the 10th inst.

and am glad to hear that you are well.

I am well and hope this finds you the same.

I have not much news to write at present.

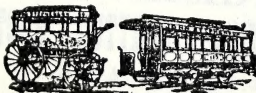

I am, however, very much interested in the

progress of the [illegible] and hope to hear

from you again soon.

STERILIZATION

The process of sterilization is a method of destroying or preventing the growth of micro-organisms. It is a process which is essential for the production of sterile products. The process of sterilization is a method of destroying or preventing the growth of micro-organisms. It is a process which is essential for the production of sterile products.

Methods

There are several methods of sterilization, each with its own advantages and disadvantages. The most common methods are autoclaving, dry heat, and chemical sterilization.

Autoclaving is a method of sterilization which uses steam under pressure. It is the most reliable method of sterilization and is used for the sterilization of most types of equipment.

Dry heat is a method of sterilization which uses heat in the absence of moisture. It is used for the sterilization of heat-stable materials.

Chemical sterilization is a method of sterilization which uses chemical agents. It is used for the sterilization of heat-labile materials.

Each method of sterilization has its own specific requirements and procedures. It is essential to follow these requirements and procedures carefully to ensure the effectiveness of the sterilization process.

The choice of method of sterilization depends on the nature of the material to be sterilized and the requirements of the process.

It is essential to ensure that the sterilization process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

The process of sterilization is a critical part of the production of sterile products. It is essential to ensure that the process is effective and that the products are sterile.

WHAT WE KNOW ABOUT FOLDING BEDS

The advertisement quoted below has caught our eye several times, and having been unfortunately bitten by cheap showy articles, we determined to investigate.

\$15 KING'S FOLDING BEDS. 7 West 14th st.
\$1,000 buys no better bed; guaranteed twenty years.

Could anything promise more or better value for the money? Well, as it is only a few blocks away, we are at King's Folding Bed Office in no time, and the bed is before us.

We find upon actual count that there is in each one of KING'S FOLDING BEDS a total of 379 parts or pieces of hard wood, metal, etc., bound together as strong as a railway bridge, and with the same care as is required in the construction of the finest watch movement, viz:

337 Parts or pieces of the best quality of steel, refined and malleable iron.

18 parts or pieces of the best and most enduring of our native forest timber.

17 parts or pieces of wrought brass.

7 parts or pieces of patent braided cable.

WHO BUYS KING'S FOLDING BEDS?

Purchasers' names on the books of the maker show us that the first year KING'S FOLDING BEDS were on sale over 500 were purchased for use in New York City alone—while a large quantity were shipped to surrounding cities, towns and villages.

It seems to be an especial favorite with physicians. To be sought for by the thoroughbred, the practical man of the world, the connoisseur, the seeker after comfort.

It is found in the richest of our metropolitan homes, in the midst of the costliest surroundings, and in companionship with the finest tapestries, rugs, bronzes, bric-a-brac, paintings, rich draperies and hangings, where it completes the comfort and adds to the luxury of its surroundings.

Every one examining it will appreciate its clean, clear cut, graceful appearance.

Its Samson strength.

Its luxurious softness.

Its being noiseless under all circumstances.

Its strong centre spring bed bottom.

Its constant convenience.

Its economy of space.

Its honest purpose in seeking only to perform the office of a clean sweet, luxurious and healthy bed.

FLOOR SPACE AND WALL SPACE OCCUPIED.

By careful measurement KING'S FOLDING BED, WHEN UPRIGHT, occupies ONE-HALF the FLOOR SPACE required for a small chair; ONE-THIRD the floor space needed for an easel; and no more space than is occupied by an ordinary screen.

It occupies the same wall space and has the rich appearance of a portiere, door or curtained window, with the hangings closely drawn.

Is it a good thing? Will it give satisfaction? Is it worth the money?

Gentle reader, it is the best thing we ever saw. If it does not satisfy you you would grumble at owning the earth. It is worth double the price asked.

Churches, Halls, Stores, Factories, etc.

Send for Circular.

Manufactured by

E. W. MILLER & CO.,

10 & 12 College Place,

NEW YORK.

Renewable Term Life Insurance,

AS ISSUED BY THE

PROVIDENT SAVINGS LIFE ASSURANCE SOCIETY,

Equitable Building, 120 Broadway, N. Y.

WM. E. STEVENS,

SECRETARY.

SHEPPARD HOMANS,

PRESIDENT AND ACTUARY.

IS THE SAFEST, THE FAIREST, AND THE LEAST EXPENSIVE
LIFE INSURANCE ATTAINABLE.

Maximum Cost in 1886 to secure \$10,000 in case of Death, was

At Age, 30 Years,	- -	\$ 96.00
" " 40	" - -	108.80
" " 50	" - -	149.60
" " 60	" - -	268.80

Among all the life insurance companies in the United States, the Provident Savings shows the largest ratios of assets and surplus to liabilities, and the smallest ratios of payments for death claims and expenses; thus proving that its insurances are safer and cheaper than in any other company.

 Send for Prospectus, or call in person.

PATENTEES OF THE

Wire Nail-Press.

Golden and Silver Medals at all principal International Exhibitions.

MANUFACTURERS OF THE FOLLOWING MACHINES:

Wire Nail Machines.

Wire Drawers. For Iron, Steel, Brass, Copper and Lead Wire of all gauges, of the most improved make.

Iron Parts for Annealing Furnaces, Wire Washers & Cranes.

Wire Drawing Benches. For drawing wire of any kind in straight bars.

Scouring and Polishing Drums. Iron frames and drums to polish nails and rivets.

Cleaning Machines. For nails after being scoured.

Blueing and Lacquering Apparatus for Nails.

Wire Galvanizing Apparatus. For wire of all gauges.

Rivet Making Machines. In 8 different sizes, to make rivets in a cold way up to 7-16 in. thick. Perfectly self-acting of the most improved construction.

Vertical Rivet Scouring Machines. Of quite a new and approved construction, totally free from danger for the workman; made to knock off the burr of the rivet head whether round or one-sided.

Pointing Machines. For pointing the rolled wire with transmission gear or with engine attached.

Rolled Wire Reels. For hand or steam power, with brake and disengaging gear.

Screw Cutting Machines for Gas Pipes, Fittings, Ferrules, Etc.

Horizontal and vertical in different sizes and kinds.

Self-Acting Punching Machines for Washers. Perforating and punching out at same time.

Headers, Slotters, Threaders and all kinds of Machines for the Manufacture of Wood Screws.

Rolling Machines. For flattening the ends of springs for railway and other carriages.

Transmissions of all kinds and for any purpose.

Machines for making hooks and eyes for ladies' dresses; soldered, riveted or other button-eyes; military and cloak hooks; eyes for military and cloak hooks; trouser-hooks; Malakoff buckle chapes; Malakoff buckle-tongues; chapes for soldered-buckles; chapes for trouser-buckles; cross-pieces for soldered buckles.

Machines for pointing the tongues of soldered buckles.

Machines for raising the points of the tongues for soldered buckles.

Machines for making screw-hooks; splints; trunk-pins; clasps for sample bags; straight and undulated hair-pins; pointed hair-pin wires.

Machines for straightening and cutting the wire.

Machines for making single and double chains for lamps, weighing plates, etc.; chains "Vaucanson"; clock chains with round and oval-shaped meshes; spiral springs; spiral net-work fence; adjustable net-work fence; elastic springs; bands for elastic springs.

Furnaces for Annealing, Blueing and Lacquering.

Stamping Machines.

(See advt. at Insurance)

CHRIS. ABELE, Millwright and Machinist,

This cut will exhibit my recently improved Portable BURR STONE MILL—opened and closed in a minute, without crane or screw and without ever losing the adjustment of stones—by means of that combined arrangement secured by Letters Patent exclusively Chris. Abele's own.

This Mill was awarded Medal for Excellence at late Semi-Centennial, of the American Institute, N. Y. and for Superiority in 1882, 1883, 1884 and 1885.

**Constructor & Contractor for
Flour, Feed, Spice, Chocolate, Plaster,
Paint, Malt, Cement, Drugs, Mus-
tard & other Establishments.**

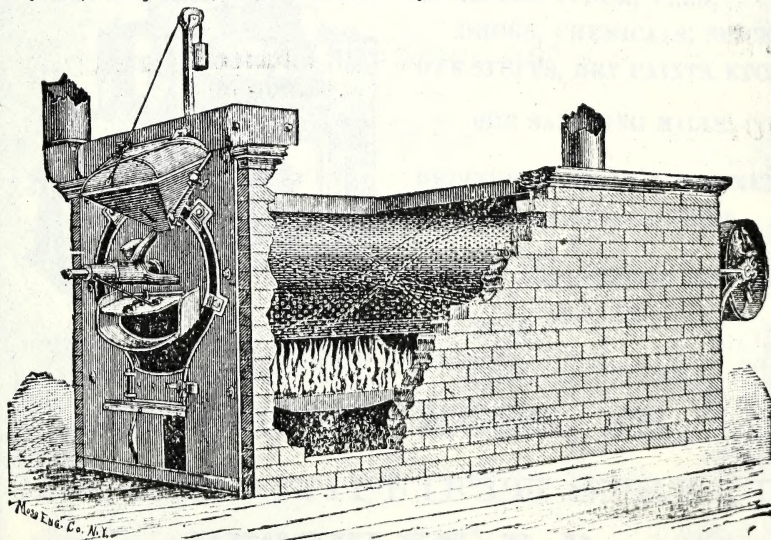

*Shafting, Hangers, Pulleys, Gearing, Bolt-
ing and Sifting Machines,
Elevators, Conveyors, &c.*

*Special and original Machinery for
Crushing, Grinding and Pulverizing,
put up at Short Notice.*

*Works laid out and Reconstructed. Esti-
mates Given. Orders by Mail
promptly attended to.*

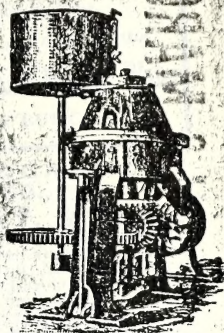

CHRIS. ABELE'S KNICKERBOCKER COFFEE ROASTER.

I claim that the coffee turned out by my Roaster has a fresh and lustrous appearance, free from any adhering smut or smoke. This you will see at once by putting it side with Coffee from other Roasters. Refers to Thurber, Whyland & Co., W. J. Stitt & Co., etc. Call for Price List.

Wooling

Wooling is the process of removing the outer covering of a sheep, which is called the fleece. The fleece is then washed and carded to remove any dirt or impurities. The resulting wool is then spun into yarn, which can be used for a variety of purposes, including making clothing, blankets, and carpets.

Wooling is a traditional craft that has been practiced for centuries. It is a labor-intensive process that requires a great deal of skill and experience. In recent years, there has been a resurgence of interest in wool, and many people are now choosing to buy wool products made from ethically sourced wool.

Wool is a natural fiber that is known for its softness, warmth, and durability. It is also a renewable resource, as sheep can be shorn multiple times a year. This makes wool an eco-friendly choice for many consumers.

Wool is used in a wide variety of products, including sweaters, scarves, hats, and more. It is also used in the construction industry for insulation and soundproofing. Wool's natural fire-resistant properties make it a popular choice for these applications.

Wool is a versatile material that can be used in many different ways. Whether you're looking for a cozy sweater or a sustainable building material, wool is a great option to consider.

JACOT'S Music Boxes

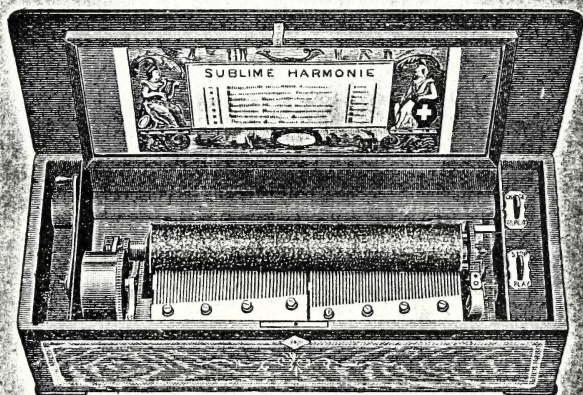

MAKE THE MOST APPROPRIATE OF PRESENTS AND
SHOULD BE IN EVERY PARLOR AND NURSERY.

They are a constant source of entertainment to invalids and the delight
and wonder of old and young.

They play to perfection selections of

OPERAS, DANCES, BALLADS, HYMNS, &c.

They are self-acting and being provided with our patent safety check
are absolutely safe from serious accident.

We have over 150 different styles from

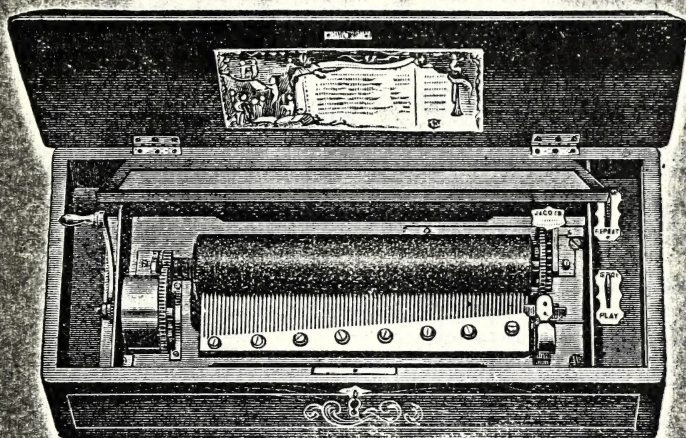

75 Cents to \$1,400.

SEND STAMP FOR FINE ILLUSTRATED CATALOGUE.

Can be ordered through any responsible Jeweler.

JACOT & SON,
37 Maiden Lane, NEW YORK.

PAILLARD'S MUSIC * BOXES ARE THE BEST.

MUSIC BOXES HAVE ALWAYS BEEN ADMIRERD BY
EVERYBODY, AND THE ONLY OBJECTION EVER
RAISED WAS THAT

“One Might Tire of the Airs”

THIS OBJECTION WAS ENTIRELY REMOVED
WHEN WE INTRODUCED THE

*** INTERCHANGEABLE CYLINDER MUSIC BOX ***

As a Music Box of that type can play an unlimited number of airs.

*Toy Music Boxes give Children the Greatest
Amount of Pleasure; the Cheapest cost
Only 35 Cents.*

PLEASE CALL AND EXAMINE OUR LARGE AND VARIED STOCK.

Music Boxes Carefully Repaired.
